SHARM DERMA 2015

**THE INTERNATIONAL CONFERENCE FOR
DERMATOLOGY & COSMETOLOGY**

Part I (Summer)

JW Marriott Hotel ,28th – 30th May 2015

Program

Cairo is a vibrant, exhilarating, exotic, fascinating and welcoming city. Home to the best Pharaonic, Coptic and Islamic sights in Egypt, this city is where you never know what incredible, half-forgotten monument you might stumble across while wandering around. Enjoy the Nile view from your hotel room balcony, visit the capital's medieval markets by Khan El-Khalili, or walk down the Nile promenade. There are also plenty of cinemas, theatres and modern malls. Go for an opera or enjoy oriental music dance shows. Good for short breaks and long stays; you'll get to see the Giza Pyramids, thousands of ancient artifacts in the Egyptian Museum of Antiquities and much more.

Moreover, Cairo is for everyone, there are plenty of mid range and budget accommodations to choose from. Pick a charming boutique hotel in the heart of downtown or indulge in utter luxury in one of the city's most luxurious establishments. These usually house professional Spas and wellness centres where you'll be treated like royalty. There are more than 75 four and five-star hotels in Cairo, which all offer stunning views over amazing landmarks such as the majestic Nile, the Pyramids, beautiful parks and gardens, and upscale clubs and compounds.

Egypt

LUXOR

Located in Upper Egypt Luxor has been described as the world's biggest open air museum. Nowadays it has been elevated to the status of Governorate, though it is still classified as being in the province of Qena. It has a population of round about 230,000, most of who are employed in tourism somehow, though there are many who are employed in agriculture and commerce. It is one of the most popular destinations in Egypt, being one of those places that you must see.

It has been estimated that Luxor contains about a third of the most valuable monuments and antiquities in the whole world, which makes it one of this planet's most important tourism sites. Monuments such as The Luxor Temple, Karnak Temple, the Valley of the Kings, the Valley of the Queens, Deir El-Bahri (the Mortuary Temple of Hatshepsut), the workers village at Deir El-Medina, the list goes on and on and on. Though most visitors will stay for just a few days, it would take a substantial amount of time to visit everything in this amazing town.

Egypt

SINAI

Sinai Peninsula in Egypt is a famous tourist destination in the country which is spread over an area of 64,000 Sq KM. The town is referred as a perfect destination to enjoy the sun, sea and adventures. Sinai houses the most popular as well as least developed beach resorts of Egypt, offering travelers of every kind an ideal accommodation option. Sinai also enjoys fame as being the scuba diving center offering many other activities like canyons and mountains for trekking, rock climbing, mountain biking, camping and even room for indulging in desert dune buggies and safari adventures.

In olden days, Sinai was famous as a chief pilgrim route and was a home to many cultures. Most part today is an arid desert and the interior part is covered by jagged mountains and ranges housing the popular archaeological monument St. Catherine Monastery and Mount Sinai, a place which tours to where God gave Moses the Ten Commandments.

Sinai overall is amazing, but the southern part is most beautiful adorned with exquisite coral reefs and best diving spots on globe.

Welcome Message

Dear colleagues

This year, Sharm Derma 2015 will be divided into two parts aiming to facilitate your attendance. Part I will be held in Cairo from 28th-30th May, while Part II will be held in Sharm El-Sheikh from 29th of October till 1st of November, 2015.

During the conference, we promise to provide you with an exceptionally valuable experience, hoping that you will enjoy the scientific content, the social program, the awesome city of Cairo & the wonderful weather during that time of the year both in Cairo & in Sharm El-Sheikh.

Regarding Part I's program, it will constitute a variety of courses, workshops and hands-on sessions (8 to 1 hands-on sessions). We have been working on providing a balanced program for Part I & Part II, including state-of-the-art in medical and aesthetic dermatology.

The program with its enormous number of symposia, workshops & hands-on sessions – many of them running in parallel – is meant to satisfy the taste of everyone during every single moment of the conference.

The courses are designed for different levels of experience and are meant to provide the basic, as well as the latest advances in every sub-specialty in dermatology. Participation of the most renowned speakers from all over the world will allow for the fruitful sharing of knowledge and experience.

I hope you will enjoy the conference and return home with precious unforgettable memories.
